Sequence 4, Application US/10091342
Publication No. US20030199045A1
GENERAL INFORMATION:
APPLICANT: Degussa AG
APPLICANT: National University of Ireland, Galway
APPLICANT: Porschungszentrum Julich Gmel
TITLE OF INVENTION: Process for the fermentative Preparation of I
TITLE OF INVENTION: Ampification of the zwf Gene.
TITLE OF INVENTION: Ampification of the zwf Gene.
TITLE OF INVENTION: Ampification of the zwf Gene.
TITLE OF INVENTION: Ampification of the zwf Gene.
TITLE OF INVENTION: Ampification of the zwf Gene.
TITLE OF INVENTION: MUMBER: US/10/091,342
CURRENT APPLICATION NUMBER: US/10/091,342
CURRENT FILING DATE: 2002-03-06
NUMBER OF SEQ ID NOS: 20
SOFTWARE: PATENTIN Ver. 2.1
LENGTH: 2160
TYPE: DNA
ORGANISM: Corynebacterium glutamicum
PEATURE:
NAME/KEY: CDS
LOCATION: (327)..(2063)

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       0
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            RESULT 12
US-09-965-825-3
; Sequence 3, Application US/09965825
; Patent No. US20020150999A1
; GENERAL INFORMATION:
APPLICANT: DUSCH, Nicole
APPLICANT: THOMAS, Hermann
APPLICANT: THISRBACH, Georg
: TITLE OF INVENTION: PROCESS FOR THE FERMENTATIVE PREPARATION OF D-PANTOTHENOIC ACID
: TITLE OF INVENTION: CORYNEFORM BACTERIA
: TILE OF INVENTION: US/09/965,825
; CURRENT FILING DATE: 2001-10-01
: PRIOR APPLICATION NUMBER: US/99/965,825
; PRIOR PILING DATE: 2000-09-30
: PRIOR PILING DATE: 2000-09-30
: PRIOR APPLICATION NUMBER: DE 10117085.8
: PRIOR FILING DATE: 2001-04-06
: NUMBER OF SEQ ID NOS: 14
: SOFTWARE: PatentIn version 3.1
: ENOTH: 875
